## CANNOT BE USED AT THIS ELECTION

No Voting Machines This Year at Polls in State of Utah.

COMMITTEE OF COUNCIL SHELVED RESOLUTION

Every Opportunity Afforded the Council to Investigate, but Matter Went by Default.

The time in which voting machines might have been adopted in Utah for use November's election has now passed. The law provides that no machine shall be used that has not been approved by the State commission ninety days before the succeeding election. As the election fails on November 7, it would not now be possible to examine and ap-prove a machine.

Resolution Was Shelved.

Went by Default.

Went by Default.

The law providing that voting machines might be introduced and making rules for their use was passed last winter and became a law on May 19. The State commission provided for under the act met and organized soon afterward. The Tribine called attention to the law and every opportunity was afforded to investigate, learn the prices of the machines and make arrangements the introduction of at least a few experimental machines for this fall's election. But the matter was allowed to go by default, as will probably also be the case next year.

#### HAS UTAH THE REFERENDUM?

Interesting Legislative Question Is Raised by a Local Attorney.

Raised by a Local Attorney.

There is, in the opinion of Attorney S. P. Armstrong, a possibility that the people of Utah now have the right to practice the initiative and referendum in legislation without any action by the Legislature. For years the people have been vainly petitioning Legislatures to pass a law making the direct legislation amondment to the State Constitution operative. The Legislature has not regarded with favor any proposal to curtail its authority and has promptly filed the petitions and killed the bills. The very interesting proposition suggested by Mr. Armstrong is that the clause in the Constitution is all the authority needed by the people to initiate desired, or reject undesired laws. "I have been reading some decisions bearing on the question," said Mr. Armstrong vesterday, "and while the authorities are divided, there are many decisions which uphold my theory. I am inclined to think that the amendment in the Constitution is self-enacting, that is, that it becomes effective even in the absence of a law defining just how laws shall be submitted to popular vote. I confess I have not yet thought of means by which the matter could be tested, but there is a possibility that a start could be made and the question raised in the courts."

The clause in the Constitution to which Mr. Armstrong makes reference reads. Mr. Armstrong makes reference reads:
The logal voters, or such fractional part
thereof, as may be provided by law, of any
legal subdivision of the State, under such conditions and in such manner and within such
time as may be provided by law, may initiate
any desired logislation and cause the same to
be submitted to a vote of the people of said
legal subdivision for approval or rejection, or
may require any law or ordinance passed by
the law-making body of said legal subdivision
to be submitted to the voters thereof before
such law or ordinance shall take effect
(Amendment adopted November 6, 1980.)

The example set by Barnum's circus seems to be contagious. The labor unions at Ogden were the first to fall in line, or, rather, not to fall in line, and pronounce against parades. Now the Salt Lake unions have decided to dispense with a parade on Labor day. September 4. Instead, the workers will indulge in a huge clam-bake at Lagoon. Clams will be free for every one who goes. Three tons of the crustaceans have been ordered from Seattle, and the bake will be in charge of an expert from California.

#### SCHETTLER ESTATE

Referee Baldwin Announces That He Will Declare Dividend.

At the close of yesterday's meeting of the Schettler creditors, which was the the Schettler creditors, which was the first held in some time, Referee Baldwin announced that he would declare a dividend at the meeting called for Friday morning. August 11. The amount of the dividend was not named by Referee Baldwin, but the indications are that it will be in the neighborhood of 8 per cent. Testerday's meeting of creditors was called for the purpose of approving certain sales made by Trustee Blakely and to receive his report gonecraining the work of adjusting claims. Three sales of real estate reported by Mr. Blakely were approved, covering the following property. To G. F. Brade, 10 acres, appraised at 35, sold for 356.

To W. F. Burton two acres in Mill Creek, appraised at 360, sold for 345.

To G. F. Bess, a parcel of subdivided lots on Twelfth South between Main and West Temple streets, appraised at 3140, sold for \$1475, of which \$73.75 is commission to the agent effecting the sale.

Mr. Blakely's report showed that he has now 3600 in hand, and this, with the money resulting from sales and other sources, will aggregate 3500, to be distributed among the creditors. As there are 350 claimants, it will take some time to compile the schedule, which probably will not be ready for ten days after the dividend is declared. first held in some time, Referee Baldwin

Tribune Reader So Declares Concerning Arrest of Blind Couple.

Editor Tritune-It made my blood boil to read in Sunday's Tribune of the arrest of the two unfortunate blind people, who have no crime charged against them, but are simply unfortunate, and, being blind, their methods of making a livelihood are necessarily limited to the selfing papers and playing a mouth-organ in the streets of Satt Lake. This fact no doubt listurbed the aesthetic tastes of certain parties who caused their arrest, and no honor to the Chief of Police that he should consent to hu-There of Police that he should consent to hu-nillate these unfortunates in such a manner. Claim on Humanity.

Not one of the unfortunates but feels by yond words to express the conditions under which they meet the world, and not one of them but would gladly lay aside the affiletion that binds them down to the lowly walks or life, that they night know the power, the strength and the freedom of life in a well body. Mayor Morris is not satisfied with the action of the City Council, taken on the recommendation of the Board of Public Works, that the contract for the paving of South Temple street from Seventh East to Tenth East, to P J Moran on the same terms made by Moran on the same terms made by Moran on the same street from State to Seventh East.

A communication from the Board of Public Works to the City Council Monday night stated that Moran was willing to undertake the work as stated, and urging that the proposition be accepted in order that the further work on that street might proceed without delay.

Mayor Morris said yesterday that he had been informed that two outside bidders were in the city, ready to make bids on this work, and he did not think it advisable to award the contract to Moran in the manner proposed, thus shutting cut competition.

The Mayor referred the matter to the City Attorney for an opinion on the legality of the Council's action and will withheid his approval until he is satisfied there is reasonable ground until that opinion is rendered.

Acting Police Judge Disposes of Many Cases.

Many Cases.

Acting Police Judge Whittaker ground out a large grist in short order Tuesday morning and evidenced a fine discrimination in his treatment of prisoners that evoked expressions of general satisfaction from the officers.

One of the most pathetic cases was that of Samuel Hallett, more than four-score years of age, who pleaded guilty to the charge of drunkenness. He was released upon his statement that never before had he been placed under arres!

Albert Allerton, who is facing a felony charge of great seriousness, was remanded in default of \$250e, with his preliminary examination set for August 12.

Ed Daniels, Herbert Daniels, Stanton Fulmer and Dave Fulmer, all of whom engaged in a rough-and-tumble fight Saturday night, paid fines of \$3 and \$10 each.

John Kooyman, who was convicted of stealing a coal, which he was trying to pawn in Commercial street, will have to come up with \$20 or spend that number of days on the rock pile. About twenty vags were given an opportunity to leave town.

#### A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule, it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels, give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all leading druggists.

## UNION BUILDING CO. IN GOOD CONDITION

Financial Report Is Made Public by the Board of Directors.

A. H. SNOW RESIGNS HIS POSITION AS SECRETARY

Deseret News Prints False and Distorted Interview With Malicious Motives.

At the monthly meeting of the directors of the Union Savings and Investment company, held yesterday afternoon, the resignation of A. H. Snow as secretary was tendered and accepted. O. G. Snow, who was vice-president, was succeeded by D. R. Williams several months ago. The new secretary will not be chosen before the next regular meeting. B. H. Roberts retains the presidency and the other officers are unchanged. The following statement of the finances of the corporation was submitted by Charles Smith, an accountant, who had been experting the books:

Explains the Items.

In explanation of some of the items in this report, Vice-President Williams said vesterday; 'The real estate mortgages have been kept down to 60 per cent of the appraised valuation on all city property and on outside property we have seldom loaned over 60 per cent of the cash value. Most of the property upon which we have made loans is in the city. The stock loans are made upon the company's own stock. The item of 'real estate' covers the houses and lots purchased by the Snows and afterward transferred to the company, but the valuation placed upon them in the report is based upon the price at which they were criginally soid and not on the price paid by the company. The difference is the subject of a disagreement between the company and some of its former officers and has not been entered upon the statement at all.'

An Official Statement.

Aft Unicial Statement.

A further explanation of the condition of the company is given in a statement to the press to which President Roberts, Vice-President D. R. Williams and Director C. D. Harding have given their indorsement. The statement, which is as follows, verifies every material statement made in The Tribune Sunday morning:

As to the charge that officers of the company have unloaded cheap real estate on the company have unloaded cheap real estate on the company at extravagant prices, I will say that it is a difference of opinion as to whether or not the company is entitled to certain margins resulting from certain real estate transactions, made by the outgoing administration. The present administration contends that the company is entitled to such, while a part of the outgoing administration contends that they are entitled to these margins.

President Not Active.

While maintaining that Mr. Roberts is president of the company in fact. Mr. Williams said very frankly last evening that Mr. Roberts had not held an operative position in other words. Mr. Roberts had attended board meetings and signed stock certificates, but has exercised no authority in the conduct of the business. This point was made clear by The Tribune with the most kindly motives. There was a question as to the business methods of some of the officers of the company in the purchasing of real estate for the company, and The Tribune said: "President B. H. Roberts is in no way connected with the practices alluded to, and, in fact, he has very little connection with the company." While maintaining that Mr. Roberts is

the News had plainly altered and distorted to suit its own purposes. It is evident enough why the News should seek to misrepresent The Tribune, but it is not clear why it should try to throw the responsibility for the misconduct of Union affairs upon Mr. Roberts by calling him "an active officer." unless it be that the editor of the News holds a grudge because Mr. Roberts has been recommended as his successor on the editorial tripod. Nowhere in the authentic statement is Mr. Roberts spoken of as an "active officer," and Mr. Williams specifically states that he has not been active in directing the business operations of the company.

Roberts to Be Better Paid.

"From now on," Mr. Williams added,
"a new administration will be in the saddle and President Roberts will be better
paid and will have more to do with the
management of affairs."

As to what will be done toward recovering the margins claimed by the company
on the real estate deals, Mr. Williams
declined to commit himself until the return of Director N. V. Jones from his
camping trip. Those present at yesterday's meeting were President Roberts,
Vice-President Williams, Secretary A. H.
Snow and Director Harding.
